

FENG SHUI with CEREZA DESIGN

Feng Shui Consultation Package

This is a deeply structured energetic recalibration of your space.

Each consultation includes a comprehensive, customized Feng Shui report—typically 13 pages—rich with room-by-room insights, annotated floor plan maps, segmented energy zones, and curated photo notes. You'll receive tailored suggestions that merge spatial alignment with your lifestyle, aesthetics, and aspirations.

We'll connect for an in-depth Zoom session to walk through every layer of the report, explore options, and answer your questions. A follow-up call is included, giving you time to reflect and implement, with continued support for placement choices and clarifications.

Your investment reflects the time, care, and precision involved in attuning your environment to support your well-being and your daily life.
