

# FENG SHUI with CEREZA DESIGN

- **We begin by gently tuning into the story your home is telling.** Through photos, measurements, and conversation, we explore how your space feels and how it supports the way you truly live. Whether in person or remotely, I'll guide you through every step — from measuring your home to reflecting on what areas feel vibrant and which might feel a bit stagnant or unsettled. Using this information, I create a personalized floor plan aligned with the Bagua map, revealing how each part of your home connects to different areas of your life. Together, we look at what's already working beautifully and where subtle, intentional shifts — in placement, balance, or flow — can bring your space into harmony with your values, rhythms, and aspirations.
- **The Feng Shui Bagua Map empowers your personal journey.** Knowledge & Self-Cultivation, Health and Family, Wealth & Prosperity, Fame & Recognition, Love & Romance, Children & Creativity, Core, Spiritual Helpers & Travel, and Career are each addressed in depth. Every area of the home is a collaborative journey and you will receive a 13 page customized summary, an energetic blueprint prepared to transform your home - and by extension, your life.
- **Your Feng Shui Summary.** This visually guided document maps each area of your home to the Bagua zones and their elements, with detailed suggestions—what to remove, repurpose, realign, or enhance. Every recommendation is precise, aesthetic, and energetically intentional. This is not generic advice—it's a harmonic attunement.
- **The result?** Clients often express astonishment—not just with the tangible shift they feel in their space after adjustments are made, but with a new understanding of their home and their life.

**This process isn't about perfection; it's about creating a home that feels aligned with who you are and how you want to live — a space that nurtures both your energy and your everyday life.**
